

# VERTIKAL // FRIENDS & FAMILY HUB

**Confidential:** Internal Beta Access

## 1) THE MISSION

**Cinema isn't dying. It's rotating.**

Vertikal is the world's first ecosystem for **Vertical Cinema**. We are not building a social network for trends. We're building a digital studio system for narrative series, documentaries, and high-fidelity storytelling—native to the 9:16 screen.

**The goal:** Build infrastructure where creators own their IP, viewers get premium stories, and networks curate dedicated lanes.
